

PERSIAN SANAT

HP 1

This type of pallet has struck a perfect balance between mechanical performance and health requirements. This pallet is considered standard in many industries across Europe. This fully closed pallet has no cavities and ribs, so water ingress and dust accumulation is impossible. It is very easy to clean. Patented welding seam of top and bottom deck ensures highest impact resistance, breaking strength and solid wall thickness. High load bearing capacity outstanding bending strength, ideal for roller conveyors or automated high rack systems. All runners have chamfered edges on both sides for ideal use with fork lift trucks. The material used to manufacture this type of pallet is food-grade.
